THE BALKAN ALPS: 4 DAYS OF PROKLETIJE NATIONAL PARK

WWW.BALKANADVENTURE.ME

WWW.BALKANADVENTURE.ME

The Balkan Alps

Also called the "Accursed mountains", Prokletije National Park is the youngest national park in Montenegro, founded in 2009, located on the territory of the municipalities of Plav and Gusinje.

This multi day tour to Prokletije is created to offer you an adventurous but yet easy and convenient way of exploring the best sights throughout this amazing national park. You will soon notice how underrated Prokletije are comparing to how much they offer.

We will go on a safari to the highest located lake in Montenegro, the lake of luck - Hrid, go hiking in the picturesque Grebaje valley and witness the best views over the Prokletije mountain range - also called the Balkan Alps, in 4 days.

DAY 1 - PLAV AND ROPOJANA VALLEY

Our tour starts in Podgorica with a comfortable panoramic drive to the town of Plav. In Plav we take some time to visit its main attraction - lake Plav, the biggest glacial lake in Montenegro. We will take a walk around the lake, take photos and visit the unique Ethnographic Museum • Redžepagića Kula. The Tower represents the most important cultural and historical monument in Plav. After Plav, we have a short drive to Gusinje and the famous Ali-paša's springs, only 1.5 kilometers from Gusinje, at an altitude of 925 meters above sea level.

DAY 2 - PANORAMIC HIKING TOUR

The second day is reserved for the most popular and beloved hiking tour of this region - the circular panoramic tour to Volušnica (1879m), Talijanka (2057m) and Popadija (2056m) peaks. We start at 09:00h from Grebaje, a scenic and narrow valley at the foot of the Karanfili peaks in Prokletije National Park. It takes about 2.5 hours of normal walking to Volušnica. For the first hour and a half, a marked path leads through the forest. Then you go out to a glade from which you can see the Talijanka (2056 m) and Popadija (2057 m) peaks. It continues along a narrow and exposed path towards Talijanka. From Volušnica to Talijanka, it takes about half an hour to walk.

We are sure you won't be able to resist the big blueberries along the way! The path below the very top goes uphill, it is quite steep and strenuous. The most cursed peaks can be seen from these three peaks. There is no way that the views from Volušnica, Talijanka and Popadija will leave you indifferent. We end our day with lunch at Grebaje valley and rest at our accommodation.

DAY 3 - JEEP TOUR "LAKE OF LUCK"

We start day 3 early after breakfast, as we head on an unforgettable jeep safari tour to one of the most beautiful lakes of Montenegro. Lake Hrid, also called the "lake of luck", is the highest altitude lake in Montenegro, located 1970m above sea level. Lake Hrid is surrounded by a dense coniferous forest behind which the granite rocks ("hridi") of the Bogićevica mountain rise to the southeast. Thanks to inaccessible roads and an isolated position in the border zone, lake Hrid is an area of magical, untouched wilderness. Some people say it reminds them of Norwegian landscapes rather than Montenegro.

DAY 4- DEPARTURE

Our adventure comes to and end on day 4. We will enjoy one last breakfast together and sum up our impressions. Hopefully, at this stage you will be satisfied with your experiences in Prokletije National Park, you will have a lot of memories to take back home and of course, a lot of new friends. We will share contacts, photos and toast to this beautiful and unforgettable adventure. We will check out after breakfast and head back to Podgorica.
